Transfer Team to Newark.

Newark, N. J., Feb. 18 .- President Edward G. Barrow of the Interna-tiona League announced today that the Jersey City franchise would be sold to Fred Tenney and James Price, who will transfer the team to this city. The purchase price has been fixed at \$25,000 and it was said that H. Clay Smith of Danville, Ill., is Tenney's financial backer. With the franchise will go ten players, all of whom played with the team last summer and were transferred to Harris-burg. Tenney wil lbe manager and Price president of the club.

BOWLING TOURNAMENT

AT TOLEDO NEXT MONTH Teams Numbering More Than 600 Will Take Part.

Chicago, Feb. 18.—Teams numbering more than six hundred wil ltake part in the American Bowling Congress tournament at Toledo next month, ac-cording to estimates based on entries which close tonight. In a message sent from Toledo today, Secretary Langley said he believed the length of the list would force the meeting to extend beyond the 25 days originally planned. Toledo leads with 200 teams.

The Boston Nationals, it has been learned will take with them to their spring training camp at Mlami, Fla., Hernard J. Lee of Irasburg, Vt., who was captain of the Tufts College baseteams of the past two years. Lee was the leading batsman among third also registered gains of a point or basemen of college teams last year.

Taftville-Emeralds in First Game of Championship Basketball Series Winds Up in a Row-Taftville Led the Score When Play Was Quit-Big Crowd Witnessed the Con-

Taftville with a two-point lead, claiming time was up, while the Emeralds' timer claimed one and one-half minutes to play.

In the first half the Taftville five showed the best form and closed with a 20-7 lead. The locals came back strong in the second half, creeping up to 26-28. According to the Emeralds' version of the dispute, Murphy, a regular member of the Taftville lineup, who was on the side lines timing, called the time and waved his men off the floor without consulting George Sheppaum, the timer for Willimantic, who claimed one and one-half minutes to play. The crowd was indignant and pushed onto the floor to see what the trouble was about. Referee Kelly had no way of deciding the matter and it up to the managers. They failed to agree and the Taftville team refusing to play longer, dressed during discussion and left the hall. The result is thus no game and the series is muddled up at the start. What will be done in regard to next Tuesday's game in Taftville is as yet undecided. The largest crowd of the come of the first team game the Has Beens and Narragansett furnished the amusement. The Has Beens did not live up to their name is stepy pulled off the come-back stuff and walloped the Narragansetts by a score of 25 to 11. This game has long to the floor the floor the floor the floor the fine thalk of the fans and walloped the Narragansetts but with the fine team work of the shooting of E. LeClair, the opponents were swept off their feet. As there was some feelings between the two teams and much boasting had been done the game proved to be more football than basketball but the fans as the old saying goes "a poor excuse is better than none."

FINANCIAL AND COMMERCIAL

Trading Was Subject to Minor Reversals During the Forenoon.

New York, Feb. 18.-Gradual but general recoveries from low levels of the early week were registered in to-day's dealings. Trading was dull and subject to minor reversals during the forenoon, but the undertone was more confident and stable. Less attention was paid to international affairs and more consideration was given to such notent factors as excellent railway and industrial earnings. Continuance of the current high pressure of activity and expansion in general trade was again reflected in the heavy bank clearings.

Coppers and other metals featured the operations to an unusual degree, Butte and Superior and American Zinc being especially prominent at new high

SWEDES WILL MAKE AMERICAN ATHLETES GO Two Countries Meet in International Track Meet.

If the proposed invasion of a Swedish athletic team for a series of inter national track and field meets eventunational track and field meets eventuates, as appears likely, the contests in
this country will in all probability be
held under the rules of the International Amateur Athletic Federation.
At the initial meeting of this body
held at Lyon, France, June 10-12, 1914,
both Sweden and the United States
athletic associations were prominent in
the formation of the Federation and
the drawing up of the rules. One of SWIMMING AND WATER POLO the drawing up of the rules. One of the subjects given much consideration was the standardizing of athletics in all parts of the world and the estab-lishing of a standard set of events and record tables.

At that meeting, to which the late James E. Sullivan was the leading American delegate, the list of recogized world's records was prepared and tentative program for the 1916 Olym-ole games promulgated. All the running events were placed under the metric system of measurement and until the war caused a halt in the athletic competition all the European countries conducted their annual championships, held at Galfe, August with these rules. At the Swedish championshipse, held at Gaife, August 29, 1915, twenty-one events were scheduled, every one of which was conducted under the L.A.A.F. rules.

Swedish and American winners last cason is very difficult since it involves course to mathematics and much figaring to ascertain the approximate lime of a hundred yard runner as comared to the winner of a hundred metr sprint. Since a meter is 2.37 inches petrict system sprinter runs 100 1-12 erds against 100 yards flat of the merican dash athlete. Ernie Hjert-erg, the Swedish Olympic trainer, is indirectly responsible for the oposed international meets, was able give a list of his best entrants in e various events but declined to atempt to figure out their time or abil-ty under the American standards. For the sprints Sweden has Smed-mark and Ottander, both of whom are good for eleven seconds in the hundred meters. This is but one-Afth of a secand slowed than Craig's time when the American won a similar event in Olympic games at Stockholm in the Clympic games at Stockholm in 1912. Scandall can do 50, 4-5 seconds in the 400 meter and Melen 1.58 in the 800. Zander is food for 15.10 in the 5,000 and Ohman 32,20 in the 10,000 metre races. Zerling has won the 110 meter high hurdle race in 15 3-5 seconds.

Never Before Such An Instantaneous And Sensational Success

From every state in the Union we hear of the amazing success of the latest Overland—the \$615 model.

At the New York and Chicago Automobile Shows-the two great national automobile events of the year—the \$615 Overland was the most widely discussed model

And why not? An electrically started and electrically lighted completely equipped Overland with four-inch tires for only \$615!

Is there any wonder this car took the whole country by

Season after season for seven years we have experienced one great success after another.

But this one tops them all. No other achievement in the history of the entire industry

parallels this record It stands out alone - boldly - conspicuously - unapproached.

Never before has an automobile success been so rapid, so definite and so sweeping

The \$615 Overland has made history. It marks the entrance of a new automobile value—a car complete in every sense of the term at a price which was hitherto thought impossible.

Yet here it is—a powerful five-passenger touring car com-plete for only \$615.

Note that word "complete."

This means electric starter and electric lights, electric horn, magnetic speedomster—in fact, every neces-sary item. Nothing is lacking. There are no "extras" to buy.

Note that the motor is the very latest en bloc design-the last word in fine engineering.

In addition note that the tires are four-inch size. This is another big advantage. Many cars costing more have smaller tires.

Note that the rear springs are the famous cantilever type. Another advantage. Cantilever springs mean the utmost in riding comfort.

Note the headlight dimmers—the electric control buttons on steering column—demountable rims and one-man top. These are all big advantages.

This newest Overland is light in weight, easy to handle and

.It's just the car the world has been waiting for.

It is large enough for the whole family-moderately priced; within the reach of the majority—economical to maintain—built of the best quality materials— enappy, stylish and speedy—and complete in every

In short, it is just another striking example of how our larger production enables us to build a bigger and better car and still keep the price within reason.

You'll want one, so order it now.

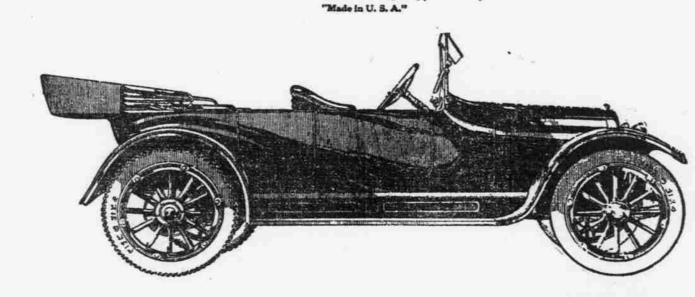

Don't wait, debate or argue with yourself. See that your order is placed immediately.

Then in a few days you and your whole family will be

Remember it comes complete-only \$6151
